TODAY'S AID TO BEAUTY

Hair is by far the most conspicu

ous thing about us and is probably the most easily damaged by bad or

careless treatment. If we are very

careful in hair washing, we will have

virtually no hair troubles. An espe-

cially fine shampoo for this weather,

one that brings out all the natural

beauty of the hair, that dissolves and entirely removes all dandruff, excess oil and dirt, can easily be used at trifling expense by simply dissolving a teaspoonful of canthrox

(which you can get at any drug-gist's) in a cup of hot water. This makes a full cup of shampoo liquid, enough so it is easy to apply it to all the hair instead of just the top of the head. This chemically dis-solves all impurities and creates a

soothing, cooling lather. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes

on the glossy richness of natural color, also a fluffiness which makes

it seem much heavier than it is.

After a canthrox shampoo, arranging the hair is a pleasure.—Adv.

These were awarded to Mar-guerite Zorach, Jennie Luce Baily of Pittsburg, Charles Louis Borie 3d of the Philadelphia School of Architecture, Georgina Browne Harbeson of Philadel-C. Tingier, James Chapin, Huge Gellert, Hester Miller, J. P. Slusser and Stephen Jarich. The society, which is working to as-

sist young artists and to bring them into communion with clients, announces that this is the last competition in which cash prizes will be given. Instead the benefactors of the society who contribute money will select works of art from the exhibition. In other words, the society does not wish so much to encourage good intentions as good work. Mr. Caruse as the Duke was in full and the competitors will be expected to command of his brilliant tones, and his give ambitious and serious work in resinging aroused abundant enthusiasm.
